

GRANI QUEEN

Water-based natural stone-like multi-design decorative coating

GRANI QUEEN SERIES

SKK

Water-based natural stone-like multi-design decorative coating

GRANI QUEEN SERIES

■ Features ■

Natural stone-like luxurious finish:

Creating luxurious wall surface more than a genuine natural stone with a variety of colour choices.

Variety of designs available:

Not like a genuine natural stone, it is not necessary to cut or process so that it can be applied to various conditions of substrates such as round columns and decorated surface and achieve natural stone-like texture.

Minimizing load to structure of buildings:

The lightweight thin film minimizes load to structure of buildings and provides no risk in fall of materials. Thus, it is suitable as a finishing material for substrate of high-rise buildings and for renovation projects.

Super dirt resistance and Super durability:

With super dirt resistant clear topcoat or super durable clear topcoat, it shall achieve anti-pollution and long durability.

- **Topcoat (Water-based)**
SK SILICON CLEAR W (Gloss / 30% Gloss)
SK FUSO CLEAR W (Gloss / 30% Gloss)
- **Super dirt resistant coating (Weak solvent-based)**
CLEAN ELEGAN TOP D (Gloss / 30% Gloss / Matt)
CLEAN ELEGAN TOP SILICON (Gloss / 30% Gloss / Matt)

Variety of groove designs available:

Your creative idea of groove shall add decorative design to your wall.

Water-based materials:

All materials are water-based with low odour. It can be safely used in various application environments.

Choice of application method according to the site environments (Spray application, Roller application):

In addition to spray application, roller application is available. Either for new buildings or for renovation, it can be safely used in various application environments.

Spray application [GRANI QUEEN]

Roller application [GRANI QUEEN ROLLER]

GQ Roller

* The materials and application specification of GRANI QUEEN ROLLER are different from GRANI QUEEN. So, the patterns and colours are slightly different. Please check with a sample board.
